

La Cumbre Mutual Water Dish Washer Rebate Program

REBATE SUMMARY

A rebate of \$250 is available for the purchase and installation of a qualifying high efficiency Dish washer.

A standard-sized ENERGY STAR certified dishwasher costs about \$35 per year to run and can save you an average 3,870 gallons of water over its lifetime. Dishwasher technology has improved dramatically over the last decade and new ENERGY STAR certified models include several innovations like soil sensors, improved water filtration, more efficient jets, and dish rack designs that reduce energy and water consumption and improve performance. By reducing water consumption, ENERGY STAR certified dishwashers also help protect our lakes, streams, and oceans.
