

La Cumbre Mutual Water Hot Water Recirculating Pump Rebate Program

REBATE SUMMARY

A rebate of \$100 is available for the purchase and installation of a qualifying new recirculating pump. Rebates are limited to one (1) hot water recirculating pump per qualified account for the lifetime of the account.

Of the average 69 gallons the typical American uses indoors, approximately 25 gallons are comprised of hot water. With a standard hot water plumbing system, users must wait anywhere from 30 seconds to 2 minutes for the water at the tap to heat up. This wait time is long enough for the typical person to get distracted and leave the running water unattended, leading to a longer wait time than necessary before using the hot water at the tap. These wasted gallons add up quickly.

A study by the Department of Energy estimated that a household of four people with four hot water fixtures can save anywhere from 3,600 to 12,000 gallons per year if an 'on demand' hot water recirculation system is installed.

The installation of a hot water recirculating pump can save customers water, and money. Customers are encouraged to consult a professional about installing a hot water recirculating pump system that will work best for their individual households.

REBATE PROCESS

1. Obtain and complete the application.
2. Install the hot water recirculating pump and submit a completed application **AND** a copy of the itemized, dated sales receipt for the hot water recirculating pump within 90 days of purchase to:

La Cumbre Mutual Water Company
695 Via Tranquila
Santa Barbara, CA 93110
Or
office@lacumbrewater.com

3. A Water Conservation Program Representative will arrange an appointment to verify installation of the new hot water recirculating pump.
4. Once the Water Conservation Program verifies the eligibility of the hot water recirculating pump and approval is granted, the rebate will be processed and credited to your water bill.

HOT WATER RECIRCULATING PUMP REBATE PROGRAM GUIDELINES AND CONDITIONS:

Qualifying Applicants

Customers who pay a water utility bill to La Cumbre Mutual Water Co.

Rebate Details

The rebate amount is \$100 for the purchase and installation of one (1) hot water recirculating pump per qualified account for the lifetime of the account.

The new hot water recirculating pump must be installed, and the rebate application must be submitted within 90 days of purchase date. The hot water recirculating pump must be purchased new, no used hot water recirculating pump will qualify for the rebate. A copy of the original itemized, dated sales receipt for the new hot water recirculating pump must be submitted with the rebate application. By applying, applicants agree to an inspection to verify the installation. Rebates will only be awarded after verification of proper installation and compliance with the requirements of this rebate. Rebate will be credited to your water bill.

Important Notes

- Possession or submission of a rebate application does not guarantee a rebate approval.
- Rebates are processed on a first-come, first-served basis.
- Rebate amounts are subject to change without notification.
- The rebate, if approved will be credited to the billing account.
- The Hot Water Recirculating Pump Rebate Program is subject to change or termination without notice.
